

U.S. Food Waste Challenge

Reduce, Recover, Recycle

Organization(s):

Loyola University

City, State: Chicago, IL

Website: http://www.luc.edu/sustainability/campus/focus_areas/composting/

What are the reduction, recovery or recycling activities?

Launched in August 2012, this program started with the collection of produce scraps from food preparation and plate-waste from Simpson Dining Hall on the Lake Shore Campus. More than 62 tons of food scraps were hauled to a commercial compost facility during the pilot year.

In 2013, the program expanded to include De Nobili Dining Hall and Engrained Cafe along with Simpson.
